

How to design a wristband:

- Make a PDF file the same size as your wristband (ex. 350 x 20mm)
 - The PDF file should have a resolution of atleast 200 dpi
 - Remember to include a 2mm bleed
- Place your design and/or logo along the whole length of the wristband
 - Pixel based designs/logos/photos need a resolution of atleast 600 dpi to ensure a crisp end result
- Outline/vectorize all text
- Declare the colors in Pantone or CMYK
- Feel free to use gradients
